### Questions to Consider When Watching a Show

- What behaviors are glorified?
- What consequences do characters face for their actions?
- How often and in what context is bad language used?
- Is there anything to be learned from this program?
- Is the show's worldview something you want your child to be exposed to?
- Is there anything specific about the show that might be triggering or problematic for your child?

It can be hard to support children in the choices they make as to what they would like to watch on a screen.

Often children will bring scenarios to school if they watch a show on a screen which is too old for them.

We want to stop this, please support us in our promotion of 'creative and kind' play.
